

Fall For Me

Kyle Echarri

I remember the night when our eyes met
I felt it instantly
You were sitting there in front
And I was right behind

Our blank faces, awkward stares
I felt it perfectly
I could almost see
What this is all about

And I couldn't even speak
I felt it and
You got me so weak in the knees

You and me, could be
A perfect melody
If you could see, through me
I'd catch you if you fall

I'm falling in, too deep
I swear I'm yours to keep
And all I could do is to sit and watch
As you fall for me

I can't shake this feeling
But seeing is believing
A love worth fighting for
Just an attempt to land ashore

A picture perfect of scenery
Lines memorized so easily
A spark is waiting to happen
It's all up to you

And I couldn't even speak
I felt it and
You got me so weak in the knees

You and me, could be
A perfect melody
If you could see, through me
I'd catch you if you fall

I'm falling in, too deep
I swear I'm yours to keep
And all I could do is to sit and watch
As you fall for me

It's all I've been asking
It's all I've been trying so hard
For just a little bit of you and me
Of you and me

It's all I've been asking
It's all I've been trying

You and me, could be

A perfect melody
If you could see, through me
I'd catch you if you fall

I'm falling in, too deep
I swear I'm yours to keep
And all I could do is to sit and watch
As you fall for me

You and me, could be
A perfect melody
If you could see, through me
I'd catch you if you fall

I'm falling in, too deep
I swear I'm yours to keep
And all I could do is to sit and watch
As you fall for me
