

# Our Moment

Kyle Echarri

Feeling lonely in the crowd  
Am I not the way I ought to be  
What's important to me now  
Can I live the way that I believe

Don't know what we're doing  
But we keep it moving  
Sometimes life's confusing  
That's just the way it is  
Feeling isolated  
But it's time to change it  
Just be the way that you are

It's our moment to shine  
Leave your troubles behind  
It's our moment  
Show the world we don't hide  
Who we are deep inside  
It's our moment  
It's our moment to shine  
Leave your troubles behind  
It's our moment  
Show the world we don't hide  
Who we are deep inside  
It's our moment

It's our moment

We don't make up who we are  
We uncover who were meant to be  
Think of what you've been so far  
Take it to it's possibilities  
Don't know what we're doing  
But we keep moving  
Sometimes life's confusing  
That's just the way it is  
Feeling isolated  
But it's time to change it  
Just be the way that you are

It's our moment to shine  
Leave your troubles behind  
It's our moment  
Show the world we don't hide  
Who we are deep inside  
It's our moment  
It's our moment to shine  
Leave your troubles behind  
It's our moment  
Show the world we don't hide  
Who we are deep inside  
It's our moment

It's our moment

It's our moment to shine  
It's our moment

It's our moment to shine  
It's our moment

It's our moment to shine  
Leave your troubles behind  
It's our moment  
Show the world we don't hide  
Who we are deep inside  
It's our moment

It's our moment to shine  
Leave your troubles behind  
It's our moment  
It's our moment right now  
Show the world we don't hide  
Who we are deep inside  
It's our moment
