Kyle Gordon

If you have a tot, tike, or toddler in your life, you can't afford to not buy this album. It's the newest CD Collection from Children's music sensation Michael Nice. Featuring 300 of his timeless tunes. It's called: "Crucial Life Lessons for Young Children" and it features songs with a message such as:

When you're hanging out with your friend  
And you wanna play pretend  
If you wanna be a man in space  
You need a helmet on your face

But you don't need a real space suit  
Any household item will do  
So put a plastic bag on your head  
Put a plastic bag on your head

And also

Your mom and dad were joking when they said you're allergic to nuts  
You are not allergic to nuts  
Cause no one is allergic to nuts  
So go ahead and eat some nuts

And don't forget about

If you're angry and you're scared  
Hit your friend

Here's another one

Don't read, yeah yeah  
Don't read, yeah yeah

Finally there's a product, that's good for children, for about half of what many toys cost. Make your child happy for once, and get yourself a big kiss in the bargain.

Lightbulbs can go in the microwave

This one's really fun

If there's doody in your pants  
That's food
