

We Will Never Die

Kyle Gordon

We are young (HO!)
There's a fire in our soul
We go big or go home together

We are young (That's Right!)
We're Black and we're white, but we
All will be tonight, forever

Cuz we will never die
No one I know will ever die
You're mom and dad will never die

Yup, we did a thing
We let our voices ring
Politicians, hear us sing
Stop lyin'

So now let's fill our cups
With what?
We'll fill them up with love
Cuz we don't give a ...
I'm buyin'
PBR's on me everyone

Cuz we will never die
No one I know will ever die
Cuz if you're young you never die
So let's have an epic night
Our mom's and dad's will never die

Let's get stoned on life tonight
Stop adulting for awhile
Check your laptop, did you see the news
Because our love went viral

Cuz we will never die
No one we know will ever die
Who's gonna have an epic night
We're all young, we'll never die
My mom and dad will never die
