

Better Off Without Me

Kyle Hume

Tears stream down your face as you
Tell me it's okay but I
Know I'm tearing us apart
Empty promises I've made
Break your heart like hand grenades
I can't stay this has to end
I can't let you down again

Cause you deserve the world
But I can never give it
Even though it's hard to say
I wish you never knew about me
Cause I know you're better off without me

So go find somebody
Who's gonna love you
Better than I ever can
I wish you never knew about me
Cause I know you're better off without me

All the words I should have said
Selfish me kept in my head
Made you feel so hard to love
But it was me who wasn't good enough

You deserve the world
But I can never give it
Even though it's hard to say
I wish you never knew about me
Cause I know you're better off without me

So go find somebody
Who's gonna love you
Better than I ever can
I wish you never knew about me
Cause I know you're better off without me

You're better off
I wish you never knew about me
Cause I know you're better off without me

And loving me is all you've ever known
But darling, you'd be so much better on your own

Cause you deserve the world
But I can never give it
Even though it's hard to say
I wish you never knew about me
Cause I know you're better off without me

So go find somebody
Who's gonna love you
Better than I ever can
I wish you never knew about me
Cause I know you're better off without me
