

Just My Type

Kyle Hume

Picture perfect
Every time I see you I get nervous
Want you but I don't know how
My friends all say
I just need to tell you how I'm feeling
Want to but I can't right now
Every time we're talkin'
You got me so all in out of line
I can't help but notice
You've been kinda focused on me tonight

You're so out of my league but you're just my type
The reason I can never sleep at night
You're in my head
You're on my mind
You're so out of my league
But I think tonight
You've been making a lot of
Eyes at me and I've been feelin' like
We might fall in love tonight

My head is spinnin'
Something 'bout tonight is feeling different
You've been looking at me
A way you never have
Maybe I should count down and just say it
Don't wanna miss my chance I should take it
3 2 1 but I can never make it
I just can't convey it
You're too intimidating cuz

You're so out of my league but you're just my type
The reason I can never sleep at night
You're in my head
You're on my mind
You're so out of my league but I think tonight
You've been making a lot of
Eyes at me and I've been feelin' like
We might fall in love tonight

You're so out of my league but you're just my type
The reason I can never sleep at night
You're in my head
You're on my mind
You're so out of my league but I think tonight
You've been making a lot of
Eyes at me and I've been feelin' like
We might fall in love tonight
