

A Broken Heart Like That

Kyle Park

Bet you got those eyes from your mama
Shining like them midnight stars
I guess you got that drawl from your hometown
Where everyone knows who you are
And just like your dad
You never back down from a fight
I got it all figured out
But there's one thing that don't seem right

Where'd you get a broken heart like that
What'd he do to mess it up so bad
And who's the fool who never knew what he had
And let you go, girl, I wanna know
Where'd you get a broken heart like that

Bet you got that new tattoo
Just to cover up his name
And I guess you're shooting double tequila
So you can't even feel the pain
And did you ever think
You'd make it 'til closing time
You say you're having fun, but
There's one thing still on my mind

Where'd you get a broken heart like that
What'd he do to mess it up so bad
And who's the fool who never knew what he had
And let you go, girl, I wanna know
Where'd you get a broken heart like that

So go on and tell me what you want me to do
'Cause I'm telling you now no one will ever ask you

Where'd you get a broken heart like that
What'd he do to mess it up so bad
And who's the fool who never knew what he had
And let you go, girl, I wanna know
Where'd you get a broken heart like that
And what'd he do to mess it up so bad
And who's the fool who never knew what he had
And let you go, girl, I wanna know
Where'd you get a broken heart like that
Where'd you get a broken heart like that
