

# Never Slow Down

Kyle Park

Always on the move  
Stuck in overdrive  
Trying to stay awake at night  
So I don't have to close my eyes  
And miss the ride  
Or the message of the song  
Waiting on the sun rise is taking too long

I've been running up and down every small town  
I've been chasing down a little good luck  
But the harder I try the more I realize  
That all I do is ask for too much  
But I'll never slow down and I'll never catch up

I'm never on time  
Still caught up in the scene  
I crash and burn at every turn  
A lesson you can learn from me on how to be  
So close but far away  
I want to see tomorrow but I want it all today

I've been running up and down every small town  
I've been chasing down a little good luck  
But the harder I try the more I realize  
That all I do is ask for too much  
But I'll never slow down and I'll never catch up

I'm fast around the track  
But I'm falling way behind  
How can I be losing if I'm making good time

I've been running up and down every small town  
Chasing down a little good luck  
But the harder I try the more I realize  
That all I do is ask for too much

I've been running up and down every small town  
I've been chasing down a little good luck  
But the harder I try the more I realize  
That all I do is ask for too much  
Yea all I do is ask for too much  
But I'll never slow down and I'll never catch up  
I'll never slow down and I'll never catch up  
I'll never catch up
