

What's Your Drinkin' Song

Kyle Park

I don't have to know your number
I don't care where you're from
Ain't gonna bore you with those worn out pick-up lines
Girl, you've heard every one
I figure I've got one shot to make my move
Gotta say it all right, gotta play it cool
If you'll give me a second
I've got a question to ask you

Just tell me what's your drinkin' song
If I know it, girl, I'll drink along
Is it old or is it something new
Does it remind you why you drink here, too
Maybe you've had more than one
I've never heard that jukebox get it wrong
Nobody ever wants to drink alone
So tell me what's your drinkin' song

If you ask me I'm a sucker
For anything Jones
Then pour in some Haggard and nothing else matters
I ain't going home

I've got songs when I'm up, got songs when I'm down
Songs I keep singing round after round
I ain't sure what you're feeling
But maybe this evening we'll figure it out

Just tell me what's your drinkin' song
If I know it, girl, I'll drink along
Is it old or is it something new
Does it remind you why you drink here, too
Maybe you've had more than one
I've never heard that jukebox get it wrong
Nobody ever wants to drink alone
So tell me what's your drinkin' song

Maybe you've had more than one
I've never heard that jukebox get it wrong
Nobody ever wants to drink alone
So tell me what's your drinkin' song
Nobody ever wants to drink alone
So tell me what's your drinkin' song
What's your drinkin' song
