Don't Make Me Wait

Kyle Patrick

```
I'm going out tonight
To find someone that is right
But time... time are always fly
So I'm going out tonight
And heart will show
And eyes will glow

Oh, don't make me wait
Another day
Take a break we have time to waste
My eyes are opened now
I need too see your face

Because the night is almost done
So don't make me wait

So something fell in place
Cause we're going on a date
And you know when the time is right
For you to know
That here, right here is the place
For heart to show
And lies to go

Oh, don't make me wait
Another day
Take a break we have time to waste
My eyes are opened now
I need too see your face

Because the night is almost done
So don't make me wait

I don't even have a picture of you
But I don't really need one
Cause you are in my bones
All you know that I will love you
As as you get here
Could you come away?

Oh, don't make me wait
Another day
Take a break we have time to waste
My eyes are opened
I need to see your face

Because the night almost done
So don't make me wait
Don't make me wait...

Cause baby I need you so
Don't make me wait
```
