

## Crowded Road

Kylesa

Hey, listen...

A crowded road ends before it begins  
Struggle to survive, hands try to grasp  
If told like it is, who will listen?  
A crowded road ends before it begins

Repeat previous verse

Pages and pages of rambling  
Expectations when there are none  
Tricks put to use  
Traded, awaited  
Abated, deflated  
A crowded road ends before it begins
