

Nature's Predators

Kylesa

Streets lined with blood
Sleep no longer rests
Try to tune it out
This is no love generation
This is the town I live in
It is an American tension
Nature's predators live through death
Your neighbor killed big brother
Dim away the world
Whitewashed away
Waking symbols rest
Human interest repressed
We are not victims
We are someone's enemy
We all have to blame someone
Because fault is never personal
This is the town I live in
It is an American tension
Nature's predators live through death
Your neighbor killed big brother
