Every Little Part of Me

Kylie Minogue

When I love
I come with scars
I come with more enough of those furthest things that you don't think you ar
e
When I love
And know that I've been little broken like a bruises
But the truth is I'm not giving up

Anytime I've tried, every tear I've cried
All the things you never see
Everytime I fell, heading down to hell
Baby, you discover it

And if you wanna love me
You gotta love every little part of me
If you wanna love me
You gotta love every little part of me

When I love, I come with stories
Hidden glories that the kind of you've only trapped about
When I love, I come with lessons
And confessions like that kind that you have never said out loud

Everytime I've tried, every tear I've cried
All the things you never see
Everytime I fell, heading down to hell
Baby, you discover it

And if you wanna love me
You gotta love every little part of me
If you wanna love me
You gotta love every little part of me

You gotta love every little part of me
You gotta love every little part of me

Hey now, I'm better now
Better than I was before
Hey now, I'm better now
I bet you're coming back for more
Hey now, I'm better now
Better than I was before
Hey now, I'm better now
I bet you're coming back

And if you wanna love me
You gotta love every little part of me
If you wanna love me
You gotta love every little part of me
If you wanna love me
(Hey now, I'm better now)
You gotta love every little part of me
(Hey now, I'm better now)
If you wanna love me
(Hey now, I'm better now)
You gotta love every little part of me
(Hey now, I'm better now)
