

Heartstring

Kylie Minogue

I was stuck in a cycle
Staggerin' slowly on ahead
Payin' the price and waiting for answers
But then, but then you took me in

You unravel me
Set the spirit free
And everything inside of me
Calls out your name now

You breathe new life in me,
You lift me off my knees
And it's making me so high
I won't come down

Because you pull me in
Baby you pull on my heartstrings
And it's the deepest feelin'
You have such an effect on me
You give me everything
To pull me in
Baby you pull on my heartstrings
And it's the deepest feelin'
You have such an effect on me
You give me everything

I was stuck in a cycle
Staggerin' slowly on ahead
Payin' the price and waiting for answers
But then, but then you took me in

You unravel me
Set the spirit free
And everything inside of me
Calls out your name now

You breathe new life in me
You lift me off my knees
And it's making me so high
I won't come down

To pull me in
Baby you pull on my heartstrings
And it's the deepest feelin'
You have such an effect on me
You give me everything
