

Simple Boy

Kylie Minogue

(I'm sick, so tired and lonely
But brake the way you're on this last one ah[?])
You act like you don't know me
Even then I'm waiting
On your touch

But you are to me like a best friend should be
The sunset in my life
Yeah you know we're not what I thought we could be
I take my own advice

It's simple, boy
So easy when I'm without you
It's simple, boy
Yeah there's days when it's hard to get through
But someone's got to make a change
Turn around and walk away
Can't take it no more, woah
It's simple, boy

Accelerate, keep braking
The flame we had is fading
Into dust
Your shadow all around me
It's bearing down upon me
Way too much

But you are to me like a best friend should be
The sunset in my life
Yeah you know we're not what I thought we could be
I take my own advice

But you are to me like a best friend should be
The sunset in my life
Yeah you know we're not what I thought we could be
I take my own advice
