Turn It Into Love

Kylie Minogue

```
   Am                      F         G
1. Do you believe I'd let you down
   C                                  C/B     Am
   Your jealous heart gave you the runaround
   Fmaj7
   You couldn't see
   E
   That I would always be your friend

   If you can look inside your heart
   And understand what's tearing you apart
   You gotta trust someone
   Don't let hate get in the way

   F
R: Just turn it into love
   G
   Turn it into love
   C                        C/B
   And open up your heart and you'll
   Am                 G
   Never feel ashamed if you
   F                            G     C   E
   Turn it, turn it, turn it into love

2. When all your other friends are gone
   I'll still be here to help you carry on
   If you have faith in me
   Then I'll believe in you

   You are the first thing on my mind
   Do you believe I wouldn't have the time
   I have to make you see
   You can't push the pain on me

R: Just turn it into love...
```
