

When The Song Comes On

Kylie Minogue

I get it
I get it

I've been thinking 'bout the kind of things you wouldn't believe, yeah
Ooh, I'm so affected by the things that you're doing to me, alright!

I get it, oh, when the song comes on
I get it, oh, when the song comes on
I get it, oh, when the song comes on
(Come up here son[?]) let the love in!

I'm getting shivers every time someone mentions your name, yeah
Ooh, I got the feeling that I'm never gonna be the same, alright!

Come a little closer
Baby whisper something
What did you say, yeah
Ooh, I'm feeling restless
All I really wanna do is play, alright!
