

# Hold Your Soul

Kyprios

I look 'em in the eye but they cannot see  
I tell it from my heart but they don't believe  
I hit you in the place where you keep your dreams  
I fertilize your mind when I plant these seeds  
My heart drums the beat  
I circulate the globe with the air I breathe  
I need to reach the world with the words I speak  
Kyprios, I got my ink in my soul that bleeds

I am just a messenger giving you the messages  
I ain't got the answer, I'll show you what the question is  
I am just a messenger giving you the messages  
I ain't got the answer but I'll show you what the question is

Diamonds ain't forever even gold will go  
All you got is you ya'd better hold your soul  
Fight back, get back, live that and take control  
All you got is you so baby hold your soul

One thing affects the other  
So in some way we're all connected to each other  
Fathers and mothers, sisters and brothers  
And other mother fuckers under it all who wanna make you suffer  
But it's straight through carry your weight load  
Try to make a difference when you're making the pesos  
It ain't so bad little man, it could always be worse  
I tell the truth and it hurts

The world is my perch and I'll leave in a hearse  
But I will leave better than when I was seeing it first  
The world is my perch and I'll leave in a hearse  
But I will leave better than when I was seeing it first

Diamonds ain't forever even gold will go  
All you got is you ya'd better hold your soul  
Fight back, get back, live that and take control  
All you got is you so baby hold your soul

I look 'em in the eye but they cannot see  
I tell it from my heart but they don't believe  
I hit you in the place where you keep your dreams  
I fertilize your mind when I plant these seeds  
Valley of death when I'm feelin' deep  
I spit hell fire when need soem heat  
Name Kyp Cocaine I wont let you sleep  
Venom in my tongue cause I'm dyin' to speak  
Jump back, jump back, front back  
Do this, say that, fuck that  
Too late, too deep to turn back  
Call me loose lip Lucifer I burn the track

I am just a messenger giving you the messages  
I ain't got the answer, I'll show you what the question is  
I am just a messenger giving you the messages  
I ain't got the answer but I'll show you what the question is

Diamonds ain't forever even gold will go

All you got is you ya'd better hold your soul  
Fight back, get back, live that and take control  
All you got is you so baby hold your soul
