

# The Only One

Kyprios

Hey hey, how u doing today?  
The name is Kyprios so make a move out the way  
Hey hey, who u tryin' to be?  
I can barely walk straight so don't follow me  
Hey hey, I got nothin' to prove  
With my sunshine rhythm for ur rainy day blues  
Hey hey, I know nothing is free  
But I'm a tell u a little somethin' way my momma told me

I'm the only one that's givin'  
Givin' u a break for the way u livin'  
Tryin' tell u somethin' boy u won't listen  
Think u got it made when u ain't made a difference

I choose to introduce u  
To the who is who of new and yes the true school  
I won't confuse u but get used to  
What we do cause we doin' it for u and u  
And who wanna excuse me of using the muse that I choose  
When I chew on the tunes interfused with the blues  
Views are in the news, Kyprios can never lose  
If the record gotta groove, the mecca gotta move  
Smothe like Big Daddy and the Juice Crew  
Feels like it used to, when u were introduced to  
Shit u could get loose to, elbows got bruised to  
Hands were in the air like the antlers of a moose do  
Cause I'm from Canada dude, and that's how Canada do  
A live wire gets u higher than the man on the moon  
The bap with the boom, the funks with a spoon  
I'm only telling u the way my momma told me to and...

Chin speak...  
Now I ain't got no money or no love company  
I got myself a story you'll learn something from me  
Now I ain't got no money or no love company  
But I'll tell u a little somethin' way my momma told me

Eat ur veggies dummy, exercise when it's sunny  
Respect ur elders fellas, ladies learn to live it lovely  
My momma told me somethin' don't hold on to one who doesn't  
Know any good like they should cause they good for nothin'  
Speak with a purpose, know what u say before u say it  
So the people won't forget they've heard it  
My momma talked a lot, in life I forgot a lot  
Remember to live it up cause it's the only one I got and...
