

Throw It Away

Kyprios

Gone with the wind and I'm on it again
Livin' every minute of it lovin' knowing that I'm in it
Live and learn, get a burn, get a scar
Take a turn, get a life, get a bike, get a car
Get a new girl, old girl got an "oh girl attitude
Look at him takin' it outta u"
What the fuck is up with that? Got to get the butter back
But at last Baby David got a better track
Better ask, don't know, don't tell
Clever lad, won't blow, won't sell
Never mad that I got a bad pen and a pad lemon in hand a lemons
And the man is a bandit abandoned the plan of Sergeant Pepper's
Lonely Hearts Club Band
What a band, what a man and I am what I am
And I do what I can can, what I can...

Movin' it out and movin' away
Rollin' it up and blowin' away
Then throw it away, throw it away
Nothing to lose and something to gain
We rollin' it up and blowin' away
Then throw it away

We only got it for a moment so we got it keep it movin'
Get it then u got it if u don't then u will lose it
Abuse it then ruin and doin' the same
We usin' the movement, improvin' then movin again
movin' up, gettin' up, gettin' by
Get it right, live it up, "whatchu doin' with ur life"?
Never mind what is in my little mind
Mind ur manners man u never know when u will die
U mean to say goodbye? U need to say hello
So we can keep it it hi-er everywhere we go, c'mon

I've been around, seen up and seen down
I've seen the ceilings of heaven and hell's basement underground and we
See it we need it, we beat it leave it bleeding, repeat it
We plant the seed but leave it be without the heating and be it
As it may, what about the shade, what about the pain?
What about the little bit of rain that carries everything away
When the levy breaks down will the town float away?
Yeah it will till u build it with a little bit of skill
Only minimal amount of men will win it all
Give it all or give it up, ya never know when it is up
Throw away the bullshit, I'm wicked till my time is up...
