

# Everywhere

Kyson

A man could levitate or float  
Been walking on these dry leaves  
Everywhere I go  
And some things need time  
And some things need time  
And some things need time to breathe

Cause there's a sky down here when I'm lying on my side  
So many changes when the lovers collide  
Four leaf clover  
In the hand of a know-it-all  
In the hand of a know-it-all  
In the hand of a know-it-all

A late could hesitate and float  
I'm worrying too much now  
Everywhere I go  
And some things need time  
And concerns combined  
Put your mind in mine  
Let's breathe

Cause there's a sky down here when I'm lying on my side  
So many changes when the lovers collide  
Four leaf clover  
In the hand of a know-it-all  
In the hand of a know-it-all  
In the hand of a know-it-all
