

## One & Other

Kyson

I'm not a little scared anymore  
Even though that I cry a lot  
I can't be that little man when you're near  
Anymore anymore

And as we walk over there  
And she asks if we know one and other  
Then I'm blinded that's all  
Then I wrote down the words  
That beauty's on my side  
Shielded like a mother's smile  
I'm all in now

Then at night I leap into the sun  
Then again you love me all at once  
Every night I loose you when we go there

One and Other  
One and Other  
One and Other  
One and Other

I don't have a bitter plan  
Nor the fear  
Even though that I cry a lot  
I can't be that little man when you're near  
Anymore Anymore

And as we walk through the air  
Has a feel like there's more to discover  
And I'm blinded that's all  
Then I wrote down the words  
That beauty's on my side  
Shielded like a mother's smile  
I'm all in now

Then at night I leap into the sun  
Then again you love me all at once  
Every night I lose you when we go there

One and Other  
One and Other  
One and Other  
One and Other
