

# Run

Kyson

And as the light comes in, I  
I feel like somethings running  
But there's a mystery  
Confusing, but your love, I want it  
And now I saw that you  
The feeling comes and it goes  
But there's a battle foreground  
I know there's beauty between

And I was running, that's why  
You feel the clutch from my dreams  
Feel like there's comfort inside  
And I wanna be a blast for you  
You know I'm not fully trialled  
But change is always in bloom  
You know the things that I do, you  
'Cause, I fell into it  
Let's not change it up  
Don't believe that I'm down  
And it won't come back unless we run  
Get it now, I'm trying  
So it's just if I  
Baby, if we run back to this

Let's make it, into something easy  
April is bringing what the blinds don't cover  
And you know I'm running alone  
The past feels tender  
But you know there's better in the future  
So much alone  
And now we're spinning

And I was running, that's why  
You feel the clutch from my dreams  
Feel like there's comfort inside  
And I wanna be a blast for you  
You know I'm not fully trialled  
But change is always in bloom  
You know the things that I do, you  
Cause, I fell into it  
Let's not change it up  
Don't believe that I'm down  
And it won't come back unless we run  
Get it now, I'm trying  
So it's just if I  
Baby, if we run back to this

(Run might catch me, fast don't catch me)  
Let's make it, into something easy  
(Run might catch me, fast don't catch me)  
(I've been)  
(I've been yeah)  
(And I)  
(Yeah)  
(Run might catch me, fast don't catch me)  
(Run might catch me, fast don't catch me)  
(Run might catch me, fast don't catch me)

(Run might catch me, fast don't catch me)  
(Run might catch me, fast don't catch me)  
(Run might catch me, fast don't catch me)  
(Run might catch me, fast don't catch me)  
(Run might catch me, fast don't catch me)
