Slowdown

Kyson

I slow down cause' I'm taking my time
She's fire like a meteorite
Cold hands and I'm leaving my zone
One wish I could see the time, see the time

My old man helped me understand
There's no plans like the now
Don't run it back

It takes time just to re-define
Deep sigh, I can see a sign now

I want you to let it go
I want you to let it go now
I want you to let it go
I want you to let it go now

Slowdown what a rational thought
Leaves fall on the bleeding floor
I won't lie cause I needed your call
One wish
I could feel you talk, feel you talk

My old man helped me understand
There's no time like the now
Don't play it back

You seem caught in a sea of fire
Deep sigh, We can be in line, be in line

I slow down cause' I'm taking my time
Leaves fall on the bleeding floor
Warm hearts and a seasonal talk
But cold hands I can feel it more

My old man helped me understand
There's no time like the now
Don't play it back

You seem caught in a sea of fire
Deep sigh, We can be in line, be in line

I want you to let it go
I want you to let it go now
I want you to let it go
I want you to let it go now
