

The Boy

Kyson

Am I still a boy?
Am I still the boy?

There's no one else here but your thought
I won't rely on all the lives I've led before
Then I was overstated
There's nothing underneath my cause

So here I go and I could walk with you
I take a minute not to scream
And If I hide it
Will the love drown
Take me to the wild place
Take me to the summer surge

Am I still a boy?
Am I still the boy?

Can we try I know this place
Where there's no darkness from my troubles

Cause' there's a lover in me somewhere, that we can let out
I had my mind all wrapped in a picture of the south

So here I go and I could walk with you
I'd take a minute not to scream
And If I hide it
Will the love drown
Take me to the wild place
Take me to the Animals

Am I still a boy?
Am I still a boy?
Am I still a boy?
Am I still the boy?

Cause' there's a lover in me somewhere, that we can let out
I have my mind all wrapped in a picture of my doubt

Am I still a boy?
Am I still a boy?
Am I still a boy?
Am I still the boy?

Can we try I know this place
Where there's no darkness from my troubles
