

Baby Gotta Fever

L.A. Guns

Baby got 'em [?] always really hot
Like it, I'm [?] and you're gonna sweat a lot
Leg rest, undress, if I cause cause all this stress, baby
You gotta suck the poison now

(Go!) When you feel it in your bones
(Suck!) When it gets unbearable
(Whoa!) You're getting dizzy, seeings stars
You're getting better 'cause you're working hard

I like my pleasure with a little pain
Let me show you my battle scars

Baby got a fever, baby got a fever
Baby got a fever, baby, I know what you need
Baby got a fever, baby got a fever
Baby got a fever, baby, I know what you need
Baby got a fever, baby got a fever
Baby, take your medicine, you'll be feeling better then
Baby, broke a hundred, put your needle to the red

There ain't no recommended dose
So suck it up, wash it down until you choke
Aye, baby, baby are you feeling okay
Hey, you know I got what keeps the doctor away

(Hey!) Yeah I'm a specialist
(You!) There ain't no cure for this
(Whoa!) It's time to medicate
I'm gonna leave you in an altered state

I like my pleasure with a little pain
Let me show you my battle scars

Baby got a fever, baby got a fever
Baby got a fever, baby, I know what you need
Baby got a fever, baby got a fever
Baby got a fever, baby, I know what you need
Baby got a fever, baby got a fever
Baby, take your medicine, you'll be feeling better then
Baby, broke a hundred, put your needle to the red

When you first start feeling funny in your head
I'll take you down
What you want, what you need
With me in this bed
Gone is the last inhibition
Don't need no last holy ride
Throw out the manual, do it like an animal
Gone to the night

Yeah, it's hot
So hot, yah!
Whoa-whoa

(Yeah) Baby got a fever, (Yeah, it's hot) baby got a fever
(So hot) Baby, take your medicine, (Yah!) you'll be feeling better then

Baby, broke a hundred, put your needle to the red

Hey! Ho!

So hot, yah!

Yeah, yeah, yeah!

Ooh, yeah
