

# Cannonball

L.A. Guns

You're rollin'  
Rollin'  
You're on a tidal wave

Floating  
You're floating  
Right into an ocean raid

Say hello to Davy Jones  
Watch you sink down like a bag of stones  
Get your crew down for a mutiny  
Today's the day

Surprise you in the night  
I don't give you time to think  
Shot you with my cannonball  
And your ship's about to sink  
Shot you with my cannonball  
And I'll watch you drown

Breathing  
You're breathing  
You're sucking that final breath

Lower  
You're lower  
Lowered to the far far depths

Don't forget your diving bell  
Get yourself out of the water well  
Now's the right time for a mutiny  
Today's the day

Surprise you in the night  
I don't give you time to think  
Shot you with my cannonball  
And your ship's about to sink  
Shot you with my cannonball

We're taking water on  
And going deeper down  
My crew is panicking  
There's nothing more to do  
My captain's log will show  
40,000 leagues below  
I went down with my ship to die

Surprise you in the night  
I don't give you time to think  
Shot you with my cannonball  
And your ship's about to sink  
Shot you with my cannonball  
And I'll watch you drown  
You're going down  
I'll watch you drown  
I'll watch you drown
