

Diamonds

L.A. Guns

Wrong turn cause you're missing the signs
Can't see from the tears in your eyes
Long talks but the voice isn't mine
You say it's really over this time

And you lock me out again
I got no right to be upset
No, I don't

And I know you feel the pain
Cause I know this time I'm the one to blame

Even though you think it's been little too, little too long
I promise I'll be the man you want today
No, a broken glass can't carry the weight
But that broken glass can shine like a diamond

I know we're broken but we shine like a diamond now
I know we're broken but we shine like a diamond
I know we're broken but we shine like a diamond now
I know we're broken but we shine like a diamond

We can shine
We can shine

Shine with me
Shine with me
Shine with me
Shine with me

I know we're broken but we shine like a diamond now
I know we're broken but we shine like a diamond
I know we're broken but we shine like a diamond now
I know we're broken but we shine like a diamond
I know we're broken but we shine like a diamond now
I know we're broken but we shine like a diamond
