

Down That Hole

L.A. Guns

You better pick another road
This path will drag you down in quicksand
Don't wait around no one will save you
Cause time and tide will wait for no man

You're gonna fall down that hole
And you're not taking me with you
You know you're gonna fall down hard
You're gonna fall down that hole
And I'm not gonna go with you
Gravity is in control

First you gotta lose it all
Before you go take on the fight
You got a lot to learn before
You're coming back now
Don't bother with the northern star
Or a guiding satellite
Only you can stop the fall
Back down, down, down

You gotta choose another side
They're gonna cast you out like vermin
Don't look around for hanging branches
You climbed this high but can you come down

You're gonna fall down that hole
And you're not taking me with you
You know you're gonna fall down hard
You're gonna fall down that hole
And I'm not gonna go with you
Gravity is in control

First you gotta lose it all
Before you go take on the fight
You got a lot to learn before
You're coming back now
Don't bother with the northern star
Or a guiding satellite
Only you can stop the fall
Back down, down, down

You're gonna fall down that hole
You're gonna fall down that hole

Dig yourself
Out of one more hole
Dig yourself
Out of this one
Dig yourself
Out of one more hole
Dig yourself
Out of this one
Dig yourself
Out of one more hole
Dig yourself
Out of this one
