

Hit And Run

L.A. Guns

Like a midnight firefly
Lighting my way
Repeat our conversations
To keep me sane
Step with caution when you go
Wide like fish eye camera roll
Times that I would run around
Now I'm finding out

I'm the one to say
We're just having fun
Didn't think you'd walk away
Like a hit and run
When the feelings came
I guess I jumped the gun
Didn't think it'd hurt so bad
Like a hit and run

How come I hear your words
And what you say
But when I read those lips
They start to stray
Cat like dog fight
To the death
Why try, resist
Nothing's left
Times that I would run around
And now I'm finding out

I'm the one to say
We're just having fun
Didn't think you'd walk away
Like a hit and run
When the feelings came
I guess I jumped the gun
Didn't think it'd hurt so bad
Like a hit and run

Yeah, hit me now
Hit me now
Hit me now, yeah

When the feelings came
I guess I jumped the gun
Didn't think it'd hurt so bad but

I'm the one to say
We're just having fun
Didn't think you'd walk away
Like a hit and run
When the feelings came
I guess I jumped the gun
Didn't think it'd hurt so bad
Like a hit and run

Here it comes
Here it comes

Here it comes
Like a hit and run

Here it comes
Here it comes
Here it comes
Like a hit and run

Here it comes
Here it comes
Here it comes
Like a hit and run

Here it comes
Here it comes
Here it comes
