

# Lost Boys

L.A. Guns

I'm alone again  
Since I was born I never had a friend  
A hopeless life apart  
Just an outcast with the devil's marks

It's an open road  
I'm takin' what I'm owed  
I never have belonged  
I won't lie down anymore  
Cause now's the time we settle the score

Oh the lost boys  
Since we were born we never had a choice  
Oh the lost boys  
We never had any other choice  
The lost boys

I've been let down again  
Fool me once never again  
No one to depend  
I look to the sky but this pain won't end

Where do I go now  
I look to tomorrow but I can't see how  
Such a tired heart  
A motherless child right from the start

Where do we go now  
Hate won't bring us down  
We never have belonged  
It's always been ours to take  
We won't stop now it's not too late

Oh the lost boys  
Since we were born we never had a choice  
Oh the lost boys  
We never had any other choice  
Oh we're the lost boys  
Until we die we never have a choice  
Oh the lost boys  
They never gave us any other choice

It's hard to not live in the past  
As our hearts bleed we're dying fast  
Our cuts run deep from broken class

Oh the lost boys  
Since we were born we never had a choice  
Oh the lost boys  
We never had any other choice  
Oh we're the lost boys  
Until we die we'll never have a choice  
Oh the lost boys  
They never gave us any other choice  
The lost boys
