

# Lucky Motherfucker

L.A. Guns

You run some kind of racket out the back of a van  
Play like you're some dangerous boy  
You think you're gonna hack it with some masterful plan  
But you're the last to know

This time, you got lucky  
It's a sign  
This time, you got lucky  
It's a sign

Famous around town  
But no one's taking your game now  
You're the new king of the shit now  
Yeah, you're one lucky motherfucker  
Nobody knows how  
But you're still banging it around  
You're the new king of the shit now  
Yeah, you're one lucky motherfucker

You're messing where you shouldn't be gone messing around  
You're just getting high on your nerve  
Your lack of riding up is only getting you down  
You're eating what you serve

This time, you got lucky  
It's a sign  
This time, you got lucky  
It's a sign

Famous around town  
But no one's taking your game now  
You're the new king of the shit now  
Yeah, you're one lucky motherfucker  
Nobody knows how  
But you're still banging it around  
You're the new king of the shit now  
Yeah, you're one lucky motherfucker

Famous around town  
But no one's taking your game now  
You're the new king of the shit now  
Yeah, you're one lucky motherfucker

It's time, don't wait  
Design another fate for you  
Your luck is burning at the stake

Famous around town  
But no one's taking your game now  
You're the new king of the shit now  
Yeah, you're one lucky motherfucker  
Nobody knows how  
But you're still banging it around  
You're the new king of the shit now  
Yeah, you're one lucky motherfucker
