

# Well Oiled Machine

L.A. Guns

I love my baby she's a well oiled machine  
She takes me places that I've never seen  
Movin fast she's a satellite  
Rollin thunder through the night

Well oiled machine  
Well oiled machine  
Well oiled machine  
Jet black shine  
Curves like a dream  
Ain't nothin like you ever seen

Lights out under blood red skies  
We fade away to the rest of the night  
She cuts me deep like a vampire  
Light 'em up set the world on fire

Well oiled machine  
Well oiled machine  
Well oiled machine  
Jet black shine  
Curves like a dream  
Ain't nothin like you ever seen

Well oiled machine  
Well oiled machine  
Well oiled machine  
Ain't nothin like you ever seen  
My well oiled  
Well oiled machine  
Well oiled machine  
She ain't nothin  
She ain't nothin  
She ain't nothin like you ever seen  
Well oiled machine  
She ain't nothin  
She ain't nothin  
She ain't nothin like you ever seen
