

## Well Spent

L.A. Guns

Love really lifts your soul  
Pain will be well spent  
Trust puts it all together  
And lies will strike you down

You gave everything I need  
Now you take everything from me

Well spent is my mind again  
Round and round this fork goes in my eye  
Well spent is my soul again  
I'm confused my mind deludes  
The spirit of the sky

Love is great above  
Pain just teaches my friend  
Fear with anger and hate is death  
And lies they kill from inside

Gave me everything I need  
Now you take everything from me

Well spent is my mind again  
Round and round this fork goes in my eye  
Well spent is my soul again  
I'm confused my mind deludes  
The spirit of the sky

Free again

So you take everything from me  
Now you take everything from me

Well spent is my mind again  
Round and round this fork goes in my eye  
Well spent is my soul again  
I'm confused my mind deludes  
The spirit of the sky

Well spent is my mind again
