

When Dreams Don't Follow Through

L.A. Guns

Waking up with the sunlight
Hope's gleaming in the rise
With dreams comes great, great fortune
But promises are sometimes lies
Ooh, yeah

When dreams don't follow through
And darkness cuts into the light
Don't fall under your situation
Get on top and make it right
What's right for you?

You got three ropes to choose from
But, the middle's the same
You look to the left, but you think of the right
It's a headstrong test, not just a game

When dreams don't follow through
And your back's against the wall
I'm not a lie to your sob, sad story
Take a step back to your fall
You're falling down, yeah

When dreams don't follow through
And darkness cuts into the light
Don't fall under your situation
Get on top and make it right
Dreams don't follow through
And your back's against the wall
I'm not a lie to your sob, sad story
Take a step back to your fall, fall

When dreams don't follow through
When dreams don't follow through
Get on top and make them right
Right, yeah
