

You Betray

L.A. Guns

You are an evil one

I can't understand
Hope slips through my hands
I've been beaten bad
And battered in my home

You were the place I would go to survive
Now it's a race to the hole where I will die

You are an evil one
Do you find it shocking?
You are an evil one
Shock

It hurts when I breathe
Ghosts are in my reach
You're like a disease
In my blood

You were the place I would go to survive
Now it's a race to the hole where I will die

You were the place I would go to survive
Now it's a race to the hole where I will die

You betray, you betray, you betray
Everyone and everything
You betray, you betray, you betray
Everything

You were the place I would go to survive
Now it's a race to the hole where I will die
