

The Nepenthes

L'Arc~en~Ciel

afuresou na ore no toge
soko nashi no idenshi
sono kizuguchi kakimawashite
kuchizuke shiyou karadajuu ni

Inner-self is calling from the DNA
I want to lick you around... seductive welcoming

As if sheltered in the bed of the nepenthes

atama no naka wa sore bakari
ai nanka ja shibararenai
risei to usotsuki wa kamihitoe
buchikowashitara saa ikou

Inner-self is calling from the DNA
Pouring my honey to you all night long
(Pouring you, honey!)

Inner-self is calling from the DNA
Pouring my honey to you all night long
(Pouring you, honey!)

Inner-self is calling from the DNA
I want to lick you around... seductive welcoming

As if sheltered in the bed of the nepenthes
