

Like You Like That

L Devine

6am, still talking to you
Tell me if I'm bothering you
Can't hang up, I'm too hung up on you
Don't know if you feel the way I do

I would wait every day to get you all alone with me
What you saying, honestly?
Don't say maybe, 'cause I'll go crazy
You're all I think about, dream about, talk about, never doubt
Want it now, tell me now, if you want to
Do you?

If I touched you like that
Would you like it babe?
If I asked to go out
Would it be a date?
If I kissed you goodbye
Would we kiss again?
I like you like that
Do you feel the same?

I like you like that, like that
I like you like that
I like you babe
I like you like that, like that
I like you like that
Do you feel the same?

I can't even concentrate
'Cause I don't know what you might say
If I tell you that I feel this way
I don't want what we have to change

I would wait every day to get you all alone with me
What you saying, honestly?
Don't say maybe, 'cause I'll go crazy
You're all I think about, dream about, talk about, never doubt
Want it now, tell me now, if you want to
Do you?

If I touched you like that
Would you like it babe?
If I asked to go out
Would it be a date?
If I kissed you goodbye
Would we kiss again?
I like you like that
Do you feel the same?

I like you like that, like that
I like you like that
I like you babe
I like you like that, like that
I like you like that
Do you feel the same?

I would wait every day to get you all alone with me

What you saying, honestly?
Don't say maybe, 'cause I'll go crazy
You're all I think about, dream about, talk about, never doubt
Want it now, tell me now, if you want to
Do you?

If I touched you like that
Would you like it babe?
If I asked to go out
Would it be a date?
If I kissed you goodbye
Would we kiss again?
I like you like that
Do you feel the same?

I like you like that, like that
I like you like that
I like you babe
I like you like that, like that
I like you like that
Do you feel the same?
