

# Off The Grid

L Devine

I don't know you but I want to  
You're so secret, won't respond to  
All the heart that I give you  
I won't judge what you've been through, no no  
But when I get near, you disappear

I only see what you permit  
I'll never know you the way I wish  
You're far away, this part is glitched  
'Cause I go there and you go  
Off the grid  
I go there and you go  
Off the grid  
I go there and you go

Off the grid  
Off the grid

You could show me bad and ugly  
I'll still be here, waiting, hoping  
Know that you can feel safe now (safe now)  
I can keep you on the ground, oh no  
When I get close, you go ghost

I only see what you permit  
I'll never know you the way I wish  
You're far away, this part is glitched  
'Cause I go there and you go  
Off the grid  
I go there and you go  
Off the grid  
I go there and you go

I only see what you permit  
I'll never know you the way I wish  
You're far away, this part is glitched  
'Cause I go there and you go  
Off the grid  
I go there and you go  
Off the grid  
I go there and you go

I go there and you go  
Off the grid  
Off the grid  
I go there and you go
