

On And Off

L Devine

The thing about me and you
Is I've gotta see it through
Lyin', compete with you
Turn it around on you
Wonderin' your whereabouts
Pullin' my hair all out
Is making a joke of me
How could I leave it now?

You really wanna take me for a ride
How come you've gotta always change your mind?
Some days you're bothered all the days, and I
I'm getting sick of it, on and off and on

Off and on and off
And on and off and on
And off

Yeah, we can manipulate
Words between love and hate
Trip on a power cord
My sense of self is bored
I won't deny the truth
I've wasted a life on you
I'm getting closer to
Being on top of you

You really wanna take me for a ride
How come you've gotta always change your mind?
Some days you're bothered all the days, and I
I'm getting sick of it, on and off and on

Off and on and off
And on and off and on again
And off again, and on again and off again
And on again, and off again and on again
And off again, and on again and off again
And on again, and off again and on again
And off again, and on again and off again
