

# When The Time's Right

L Devine

So I should wait for better days  
But my better days with you that I anticipate  
I try to tell you, but you don't get  
That I can keep you safe unlike the ones you met

So, Imma keep on calling you back  
Calling you back again  
No, 'cause you know you got my loving like that  
If you want it you just gotta say when

Say you gotta go and get your mind right first  
Face a couple struggles in your life that hurt  
You don't gotta worry I'm a right one, so  
Tell me that you want it when the time's right

Say you gotta go and get your mind right first  
Face a couple struggles in your life that hurt  
You don't gotta worry I'm a right one, so  
Tell me that you want it when the time's right

When the time's right  
When the time's right  
When the time's right  
When the time's right

Won't you stay?  
Don't walk away  
I can't help but try warn you from your worst mistake  
I can save you from every fall  
But babe, you gotta let me know you care at all

So, Imma keep on calling you back  
Calling you back again  
No, 'cause you know you got my loving like that  
If you want it you just gotta say when

Say you gotta go and get your mind right first  
Face a couple struggles in your life that hurt  
You don't gotta worry I'm a right one, so  
Tell me that you want it when the time's right

Say you gotta go and get your mind right first  
Face a couple struggles in your life that hurt  
You don't gotta worry I'm a right one, so  
Tell me that you want it when the time's right

Leave  
Give over one night  
You're all I need in my life  
Give over one

When the time's right  
When the time's right  
When the time's right  
When the time's right

Say you gotta go and get your mind right first

Face a couple struggles in your life that hurt  
You don't gotta worry I'm a right one, so  
Tell me that you want it when the time's right

Say you gotta go and get your mind right first  
Face a couple struggles in your life that hurt  
You don't gotta worry I'm a right one, so  
Tell me that you want it when the time's right
