

## Fake Friends

L7

When you were down, they were never there  
When you're all alone, you really get to learn  
If you get back up, they're gonna come around  
All the sycophants, they love to make romance

To the ugly sound of 'em tellin' you  
What you wanna hear and you pretend

'Cause they all agree you're supposed to have  
A better life but you're feelin' worse  
And they've built you up till you fool yourself  
That you're somethin' else, and it's like a curse

'Cause you can't live up to what they made of you  
And they tell ya that you're losin' friends

Losin' friends  
Losin' friends  
You got nothin' to lose  
You don't lose when you lose fake friends

You go and tell 'em you were king of the hill  
When you need a hand, that was yesterday  
You see 'em laugh while you're on your knees  
And it breaks your heart 'cause you gave so much

And you can't believe that you hit the ground  
And you notice you've been losin' friends

Losin' friends  
Losin' friends  
You got nothin' to lose  
You don't lose when you lose fake friends  
Losin' friends  
Losin' friends  
You got nothin' to lose  
You don't lose when you lose fake friends  
Fake friends  
You got nothin' to lose  
You don't lose when you lose fake friends  
Fake friends  
Fake you

Fake friends  
Fake, fake friends  
Fake friends  
Fake, fake friends (losing friends)  
Fake friends  
Fake, fake friends (losing friends)  
Beat it
