

Holding Pattern

L7

Holding pattern, hesitation wounds
There's big changes coming
I hope they get here soon get here soon

Holding pattern, something's gotta give
History is dying, future's gotta live gotta live

Find a way to get paid everyday
Start the ride hold on tight
Take a pill, force yourself, make a call
Do it it's just your life

Get a grip, bust a move, cut the crap
Da da da da da da
Get it off, turn it on, plug it in
The future is waiting

Holding pattern, today could be the day
Clean out all the closets
Gotta make some way make some way
Get here soon

Find a way to get paid everyday
Start the ride hold on tight
Take a pill, force yourself, make a call
Do it it's just your life

March into the unknown
Swan dive into the void
Get up on that platform
The ego is getting annoyed

Find a way to get paid everyday
Start the ride hold on tight
Take a pill, force yourself, make a call
Do it it's just your life

Get a grip, bust a move, cut the crap
Da da da da da da
Turn it off, get it on, plug it in
The future is waiting
Get here soon [x8]
