

## Shoo Bee Do Bee Do (I Like That Way)

La Bouche

I feel good, like I should  
I was out for love and there you stood  
I prayed to God to make it last  
Boy, I never fell in love so fast

You give me everything I've been dreaming of  
I got you under my skin, I can't get enough

Shoo bee do bee do, I like that way  
Boy, I need you every single day  
Shoo bee do bee do, I've found my way  
Straight into your heart please let me stay

There's a light in your eyes  
Boy, you really got me hypnotised  
And when we kiss (and when we kiss)  
It makes me weak (it makes me weak)  
Boy, you really knock me off my feet

You give me everything I've been dreaming of  
I got you under my skin, I can't get enough  
Shoo bee do bee do, I like that way  
Boy, I need you every single day  
Shoo bee do bee do, I've found my way  
Straight into your heart please let me stay

Yes yes y'all, you don't stop, you don't stop that body rock  
Yes yes y'all, you don't quit, you don't quit  
Hold it, wait a minute  
Lane in the house with that old school flavour  
Y'all save ya, shake what your mamma gave ya  
Have to adapt it in a beat that's phat  
Here's the facts, La Bouche is all that  
Crowds getting loud, and their begging us just to get on down  
Everywhere we go is a stomping ground  
Ten-  
thousand people with their hands in the air, screaming out "Oh yeah"  
My [?] Mamma's got a brand new bag  
Should be a crime to think it don't rhyme  
Come on and hit me one time (huh)

Shoo bee do bee do, I like that way  
Boy, I need you every single day  
Shoo bee do bee do, I've found my way  
Straight into your heart please let me stay

Shoo bee do bee do, I like that way  
Boy, I need you every single day  
Shoo bee do bee do, I've found my way  
Straight into your heart please let me stay
