

Blue Jay

La Luz

Blue, blue jay, nothin' is goin' my way
Look how the water catches the light
And watch as it goes down the drain
I lost control but I never had it
Nothing will be the same

Nothing's the same
Nothin' will be the same
Nothing's the same

You're brand new, but I was made for you
A picture in diamond dust on the island
Oh, must we leave so soon?
Try to remember time's an illusion
I'll always be with you

I'll be with you
I'll always be with you
I'll be with you
