

# Dandelions

La Luz

Please forgive my long absence  
I'm coming home to you  
I have missed the long sweet days  
Of nothing much to do

How I love the easy way  
You walk around the room  
Pulling in everyone and all surrounding you

Dandelions  
Little suns of the meadow  
How they'll soon be turning into moons  
Close your eyes  
In the warm California afternoon  
I'll be there with you so soon

How the weeds move in the breeze  
The meadow's green in June  
Soon to go all rough and gold  
As Summer blazes through

Dandelions  
Little suns of the meadow  
How they'll soon be turning into moons  
Close your eyes  
In the warm California afternoon  
I'll be there with you so soon

I'll be there with you so soon  
I'll be there with you so soon  
I'll be there with you so soon  
I'll be there with you so soon
