

Good Luck With Your Secret

La Luz

Late morning light
Through the cracks of the off-white blinds
Caught up in a moment
All your insight looking outside

You can be
A mystery if you really want to be
When it helps
Just as well to keep it to yourself

And in the end
Good luck with your secret
Good luck with your secret
Good luck with your secret
If you tell or if you keep it

And in the end
Good luck with your secret
Good luck with your secret
And in the end
Good luck with your secret
Good luck with your secret
Good luck with your secret
If you tell or if you keep it
