

Goodbye Ghost

La Luz

When you leave, no, I won't see you again
Don't believe we will ever be friends
When you had the world in your hands
You and I wasn't a part of your plans

Goodbye, old ghost, goodbye
Goodbye, old ghost, goodbye

Feels so great as the day begins to end
Walking out of the constellations
Fast asleep and in another world
Alone again as I've always been

Goodbye, old ghost, goodbye
Can't say you didn't try
