

Here on Earth

La Luz

Tell me, baby, just what is wrong with you
How I tried to do all you want me to
I do it everyday to prove to you I'm true
Tell me, baby, just what is wrong with you

Don't worry, no (I'll be around)
Don't worry, no (Anytime you need me)
Don't worry, no (I'll be around)
As the days fly by
Just remember I
Am here on earth to love you

With the sun in your hair I watch the colors move
Red and yellow, green and white and black and blue
Lets me see you're made of light, and as you bloom
The sun's in your hair, I watch the colors move

Don't worry, no (I'll be around)
Don't worry, no (Anytime you need me)
Don't worry, no (I'll be around)
As the days fly by
Just remember I
Am here on earth to love you
