

Lonely Dozer

La Luz

I traveled all the way across a great divide
To see my image in the dust on the other side
I try, I try

Through dim lit halls and city streets I look to find
My secrets written in the wind, in the passing time
I try, I try, I don't own my mind

Lonely Dozer, mouth so dry
Sleepy Dozer, alone inside the night

It took some time to readjust, to realign
The floating features took a shape that looked back at mine
I try, I try, I don't own my mind

Lonely Dozer, mouth so dry
Sleepy Dozer, alone inside the night
